

FGLS Number -

Date of birth - -

Paediatric Outpatient Record Number

Date of this visit - -

Paediatric Hospital Record Number

Was the child part of the Preterm Postnatal Follow-up Study? yes no

Infant Milestones

Please record the age (in months and weeks) at which your child first achieved each of the milestones below.

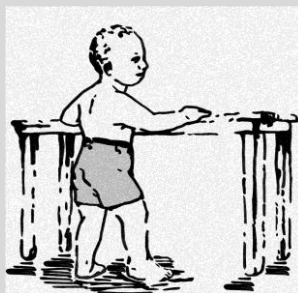

Sitting without support

"Child sits up straight with her/his head erect for at least 10 seconds. S/he does not use arms or hands to balance body or support position."

mths weeks Never observed

Walking with assistance

"Child is in upright position with her/his back straight. Child makes sideway or forward steps by holding onto a stable object (furniture) with one or both hands. One leg moves forward while the other supports part of the body weight. Child takes at least five steps in this manner."

mths weeks Never observed

Hands-and-knees crawling

"Child alternately moves forward or backward on hands and knees. Her/his stomach does not touch the supporting surface. There is continuous and consecutive movements at least three in a row."

mths weeks Never observed

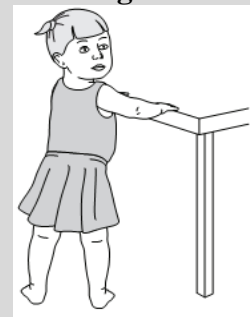

Standing alone

"Child stands in upright position on both feet (not on the toes) with the back straight. Her/his legs support 100% of the child's weight. There is no contact with person or object. Child stands alone for at least 10 seconds."

mths weeks Never observed

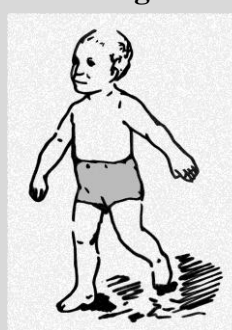

Standing with assistance

"Child stands in upright position on both feet, holding onto a stable object (e.g. furniture) with both hands without leaning on it. Her/his body does not touch the stable object and the legs support most of her/his body weight. Child thus stands with assistance for at least 10 seconds."

mths weeks Never observed

Walking alone

"Child takes at least five steps independently in upright position with the back straight. One leg moves forward while the other supports most of the body weight. There is no contact with person or object."

mths weeks Never observed
